PAW ENVIRONMENTAL IMPACT STATEMENT

PAW will seek to minimise our impact on the environment and support sustainable ways of doing things.

Where possible we will:

- consider the life cycle of our products and services and ensure they are as sustainable as possible,
- buy materials and resources that come from renewable sources where we can,
- use, wash and reuse glasses, and use renewable plates, cups and cutlery at our main exhibition centre and at our event locations, and not use single-use plastics,
- reduce our printed publicity material as much as possible and encourage e-publicity where we can,
- reuse or recycle our waste,
- minimise our carbon footprint through low energy usage,
- involve our members and other stakeholders in sustainable development by encouraging them to do likewise.
